Ahern's Champion Surface Point!

The common old fashioned Surface Point has been eclipsed. A new method has been used in making Surface Points and Bullsets, note the result. During the last eight months we have made and sold over 3 tons of our Champion Surface Points and Bullsets, and out of the 3 tons only seven tools have jumped off the shank. Beat that record if you can. We have shipped them all over the United States, and orders for more have come back from nearly every place we sent them. We temper them by a secret process which prevents the steel from crystallizing and breaking. Poor tools are high at any price. Where you pay \$1.25 for the old style Surface Point and then run a risk on its breaking the first day you use it, you are gambling with your money. On the other hand pay \$1.75 for Ahern's Champion Surface Point and you are insuring yourself against loss. The largest granite manufacturers in Barre use our Surface Points and find them exactly what we represent them to be, the best tools of the kind on the market. Made only by

Mr. Crahan of the Theaterium received a wire last evening informing him that the great film, "The Passion Play of Oberammergau," had been shipped to him. This is the finest picture ever produced. It is made by Pathé of Paris, hand colored throughout, nearly 5,000 feet long and is a reproduction of the "Passion Play" of Oberammergau. This great picture ran for over four years at the Eden Musee, New York City, and played to capacity wherever shown. As Mr. Crahan is to make some extensive improvements at the Theaterium that will enlarge the seating capacity, the date of this picture is not yet arranged.
